

## TB253520

Toolbox TB253520 is made of electro galvanized white painted steel with 1.5mm thickness. The standard measures are 1210 x 750 x 600, but they may be customized upon request. This product is shaped on the front and includes 2 pullout drawers and shelves, useful to divide the inner space according to customer's requirements. The item is furthermore endowed with Euroinox stainless steel locks and gas springs for the upwards opening. The brackets for padlock ensure an even more secure locking system.
